Suggestions for Social Media Posts & Conversation Talking Points

- When Jesus prayed for Church unity in John 17, he said that it would result in the whole world knowing who he is and that he loves them. We have a great opportunity to do that now.
- Our church is part of a collaborative effort of many churches and organizations across Greater Dallas working together to address the current literacy crisis.
- A staggering 86% of Dallas County students are not receiving the education they need while nearly 60% of jobs require higher education.
- Our goal is to work together and come alongside dozens of elementary schools this school year to help them improve their 3rd grade reading scores by at least 5 points.
- Send any other Bible resources you believe will help Christians understand that reading matters to God to bible@unitethechurch.org so we can let other churches know about it.
